## Data Analyst

✉ shamilsb248@gmail.com    ☎ 7012688268    📍 Calicut, Kerala    🔗 [linkedin.com/in/shamilmidhlaj](https://www.linkedin.com/in/shamilmidhlaj)

### Profile

Detail-oriented **Data Analyst** with strong proficiency in **Microsoft Excel** and hands-on experience in **SQL, Power BI, and Tableau**. Experienced in **data cleaning, analysis, MIS reporting, and dashboard development** to convert raw data into actionable insights. Comfortable working in **fully remote environments** and supporting **U.S. working hours**.

### Professional Experience

**DATA ANALYST - Bridgeon Solution LLP** 05/2025

- Analyzed datasets and designed dashboards to support data-driven business insights.
- Applied **SQL** for querying, filtering, and organizing data for reporting needs.
- Developed interactive **Power BI and Tableau dashboards** with KPIs, charts, and filters.
- Prepared **Excel reports** using PivotTables and data visualizations.

### Skills

**Programming Languages:** — SQL

**Tools & Technologies:** — Excel | Power BI | Tableau

**Database Management:** — PostgreSQL

**Data Analysis & Reporting:** — Data Cleaning | Data Modeling | KPI Development | Dashboard Design

**Soft Skills:** — Problem-Solving | Communication | Critical Thinking | Quick Learner | Decision Making

### Projects

**Emirates Airlines Flight Performance Analysis | Power BI, DAX | Dashboard** 🔗

- Built an interactive Power BI dashboard to evaluate airline revenue, profitability, flight operations, and passenger trends from **5,000+ flights (2024)**.
- Defined **DAX KPIs** for total revenue, profit margin %, load factor, route performance, and aircraft efficiency with drill-downs.

**HR Workforce, Training & Employee Engagement Analytics Dashboard | Tableau | Dashboard & Insights** 🔗

- Visualized HR data from **3,000+ employees** to monitor workforce size, attrition trends, training outcomes, and engagement levels.
- Designed **Tableau visuals** (KPIs, heatmaps, dual-axis charts, LOD calculations) to evaluate attrition risk, training effectiveness, and work-life balance.

**Zudio Sales Performance Analysis | SQL | Reports & Insights** 🔗

- Examined retail sales data using **SQL** to assess store performance, category contribution, and regional sales patterns.
- Leveraged **joins, aggregations, subqueries, and time-based queries** to uncover top-performing stores, high-revenue cities, and seasonal trends.

**Retail Sales Analysis Dashboard** 🔗

- Designed an interactive Excel dashboard to evaluate retail sales performance across multiple sales zones.
- Identified **monthly revenue trends, product-wise performance, and zone-wise contribution** to understand demand behavior.
